

Discloser

009 The Clamp Stand is a tool made of aluminum matel in a square form. These three sizes fit the most commonly used sizes of the market of hardware Clamps. These common sizes are 1/2 inch, 3/4 inch and 1 inch in diameter. The reasoning for this tool is to increase a very commonly used tools ability to preform objectives. The Clamp Stand helps hold things in place that the Clamp alone could not correctly do. It is a very practical tool thats easy for most individuals to understand and put to use.
